

The 43609 Diaries

Chuckles

Chuckles was found in 43609 when our free-roaming team was out trapping one evening. About 4 weeks old, he came to us emaciated with an upper respiratory infection. His caretaker could not afford treatment for him, so we treated him using our Cody Fund, and then found a foster home for him.

Little Eeney

Five tiny kittens were found in 43609. They were brought to Humane Ohio for medical care and spay/neuter. One of our wonderful vets took them home to foster and name them Eeney, Meenie, Miney, Moe, and Sam. This is Eeney who has found her forever home.

Warm Shelters

In the winter of 2010, several volunteers and staff members began building inexpensive, yet very effective shelters for the free-roaming cats in 43609. The shelters were delivered and were very well received by the cats we've spayed/neutered in the area.

Traps Set

While on a photo shoot with a local media outlet, Humane Ohio's Marketing Director came upon a colony of free-roaming cats who were living near a large dumpster. Our free-roaming cat coordinator (aka the 43609 angel) added the kitties to her database and they will be trapped and cared for.
